GASTRONOMY

Good food is part of our Cretan DNA. Our chefs bring to your table a seasonal array of flavorful dishes all made with exceptional local, organic produce sustainably farmed from our own organic gardens as well as handpicked local suppliers.

We have managed to create authentic farm-to-fork culinary experiences by building a local supply chain to support the local market and economy, but also lessen the burden of our environmental impact. In parallel, through our 'Sustainable Supplies' initiative we educate on sustainability-related issues 8 important to our chain suppliers.

Of course, as Cretans, agriculture is woven into the fabric of our lives, that is why we developed the "Sustainable Hotel Farming" initiative growing some of our own produce right here at Creta Maris, in a small, organic garden, meeting sustainability standards and utilizing environmentally friendly methods and tools.
